

INTERNATIONAL
DRONE SHOW 2026

International Drone Show 2026

3-4 June 2026 | H.C.A Airport, Odense, Denmark

Europe's Leading
Drone Industry Platform

THE PURPOSE

Why Join the International Drone Show

The International Drone Show brings together leaders from defence, industry, research and the public sector to accelerate real-world use of unmanned technologies.

It's where end users meet innovators – from defence forces and critical infrastructure to industry pioneers and technology developers.

Join to:

- Showcase solutions to buyers, operators, and partners seeking next-generation capabilities.
- Explore opportunities across defence, security, industry, and integrated airspace.
- Build collaborations that drive innovation, market growth, and sustainable impact.

Be part of Europe's leading platform where unmanned technologies move from concept to deployment.

FACTS

3-4 June 2026
HCA Airport, Odense

+ 1,500 participants
from companies,
research institutions,
public organizations,
defence, and end users
across the global drone
industry.

Over **140 exhibitors**
present cutting-edge
drone technologies and
solutions, offering unique
opportunities to connect
with leading companies
and innovators shaping
the future of unmanned
systems.

See drones in action
during **live outdoor
demonstrations** –
from advanced
inspections to
innovative drone
applications.

KEY THEMES 2026

Defence and Security

**Industry Use Cases &
New Technologies**

Integrated Airspace

**Unmanned Systems
on Land and Sea**

WHY EXHIBIT?

Exhibiting at the International Drone Show gives your company direct access to the global drone industry. Present your latest technologies and solutions to decision-makers, researchers, and end users from across sectors such as defence, energy, logistics, and Infrastructure.

Engage in B2B meetings, live demonstrations, and networking activities that turn visibility into real business opportunities — all within a focused, high-impact environment at the heart of Europe's leading drone event.

SPEAKERS

At IDS, inspiration meets insight as industry leaders, experts, and policymakers take the stage to discuss the latest advancements shaping the future of drones and unmanned systems. The conference offers **keynotes, panel debates, and discussions**, creating a vibrant space for dialogue, knowledge sharing, and collaboration.

In 2026, the program focuses on **Defence and Security, Industry Use Cases & New Technologies, Integrated Airspace, and Unmanned Systems on Land and Sea** – exploring how drone technology fuels innovation and addresses challenges in **safety, regulation, and integration** across the global drone ecosystem.

DEMOFLIGHT

Experience the future of drone technology in action.

At IDS, a series of **live demonstrations showcase** how drones and unmanned systems can be used for inspection, surveillance, logistics, defence, and infrastructure. It is also possible to perform a demo flight yourself.

The demonstrations provide an inspiring insight into the latest technology and the many opportunities drones create across industries.

WHY PARTICIPATE?

Explore Innovation

Discover new technologies and see live drone demonstrations.

Learn & Collaborate

Join conference sessions, hands-on showcases, and B2B matchmaking.

Industry Gathering

Brings together the entire unmanned systems industry – from manufacturers to end users.

Connect Globally

Meet international stakeholders and expand your network.

Shape the Future

Where the future of drone innovation is showcased – and ideas take flight.

VENUE 2026

Hans Christian Andersen Airport, also known as Odense Airport, is located in Beldringe about 10 km north of Odense. Built during World War II, it has since been developed into a modern charter and business airport.

With a 2,000-meter runway, the airport handles both larger passenger aircraft and small private planes. Today, it is known for charter flights to popular destinations and for hosting the UAS Denmark Test Center for drone testing.

FLOORPLAN

Booth package includes:

- Floor space according to your booth size
- 1 table + 2 chairs
- Free Wi-Fi & 1 power plug (230V)
- 1 entry ticket
- Special discounted tickets for additional staff

Entry ticket includes:

- Conference & exhibition access
- Demo flights & B2B matchmaking
- Catering throughout the day

SPONSORS OPPORTUNITIES

Lounge Sponsor

DKK. 40,000

- > Exclusive name-branding of networking lounge in main exhibition area
- > Onsite branding: logo on lounge build-up, possibility to share own materials in lounge area
- > 2 Full Conference Tickets for IDS

Networking Dinner Sponsor

DKK. 25,000

- > Exclusive sponsorship of the opening night Network Dinner
- > Naming partner: Network Dinner Powered by "Sponsor"
- > 5 minutes to address attendees in the opening of the Network Dinner
- > Napkins branded with your company logo
- > 5 tickets for the Networking Dinner

IDS Afterhours Sponsor

DKK. 19,000

- > Exclusive sponsorship of the informal after-hours event at IDS
- > Naming partner: IDS AfterHours Powered by "Sponsor"
- > Roll-up placement at event

Keyhanger Sponsor

DKK. 10,000

- > Feature your logo on the keyhangers for IDS participants

SOLD

SPONSOR PACKAGES

GOLD
DKK. 75,000

- Full Conference Tickets (10 pcs)
- Tickets for VIP Networking Dinner (4 pcs)
- Display space in partner area
- Access to B2B matchmaking tool
- Logo on breakerslides during conference
- Logo showcased during IDS opening
- Full digital Visibility (Various benefits incl)

SILVER
DKK. 37,500

- Full Conference Tickets (4psc)
- Display space in partner area
- Access to B2B matchmaking tool
- Logo on breakerslides during conference
- Full digital Visibility(Various benefits incl)

BRONZE
DKK. 15,000

- Full Conference Tickets (2 psc)
- Access to B2B matchmaking tool
- Logo on breakerslides during conference
- Logo recognition on IDS website
- Logo recognition on event mailings
- Logo recognition on LinkedIn
- IDS partner logo for online display

Our sponsor packages give your brand strong visibility onsite and online – from the conference itself to ongoing promotion on our website, LinkedIn, and event mailings. Choose Gold, Silver, or Bronze to gain the right level of visibility, networking opportunities, and recognition in the international drone community.

All sponsors are featured on the IDS website, LinkedIn, and in event mailings – even after the event.

TESTIMONIALS

“

The International Drone Show is an excellent venue for us to showcase our systems and highlight their capabilities. It's crucial for us to physically demonstrate our drones and engage directly with operators who utilize them in the field. This hands-on interaction allows us to effectively communicate the full potential of our technology.

Laila Amina McGee
Inside Sales Manager Quantum
Systems GmbH

“

International Drone Show is a very inspiring place that keeps me motivated. The key element here is networking, which thrives when diverse businesses and sectors come together. Discussing drone applications is crucial, as it drives people to find new solutions, update existing ones, and continuously seek innovative uses and better ways to solve problems.

Arkadiusz Zurek
Scientific Assistant/PhD
Candidate, CASUS

“

Attending the International Drone Show is important for us at Jeda. It's a highly collaborative environment that facilitates engaging with our community, including our members, regulators, industry professionals, OEMs, and other participants. This experience has been both a joy and a privilege for us.

Julie Garland
President of JEDA & CEO of
Avtrain
